LETTER FROM THE HELM

ÖMER MALAZ

Dear friends,

Every voyage begins with a spark of curiosity and a desire to explore the unknown. The sea always calls us to new horizons and secrets yet to be explored. We're thrilled to announce a new chapter in Numarine's global journey. Building on our strong presence in key international markets, Numarine is expanding its reach across the Middle East, Australia, and New Zealand. These regions represent vibrant and growing communities of yacht enthusiasts who share our passion for exploration, innovation, and life at sea.

In this issue, we invite you to discover the many expressions of the Numarine philosophy—from the boundless exploration of our XP and MXP ranges to the timeless elegance of our new Classic Line. Featuring the 40MXP, the highly successful 27XP, and a first look at our Classic Line, each represents a distinctive interpretation of life at sea. The 27XP continues to set the benchmark for compact explorer yachts, combining impressive range, exceptional seaworthiness, and remarkable comfort. The 40MXP expands those capabilities with generous living spaces and uncompromising long-range performance, while the Classic Line introduces a new vision of timeless sophistication, blending classic proportions with contemporary craftsmanship. Together, they celebrate a shared spirit of adventure, freedom, and enduring design.

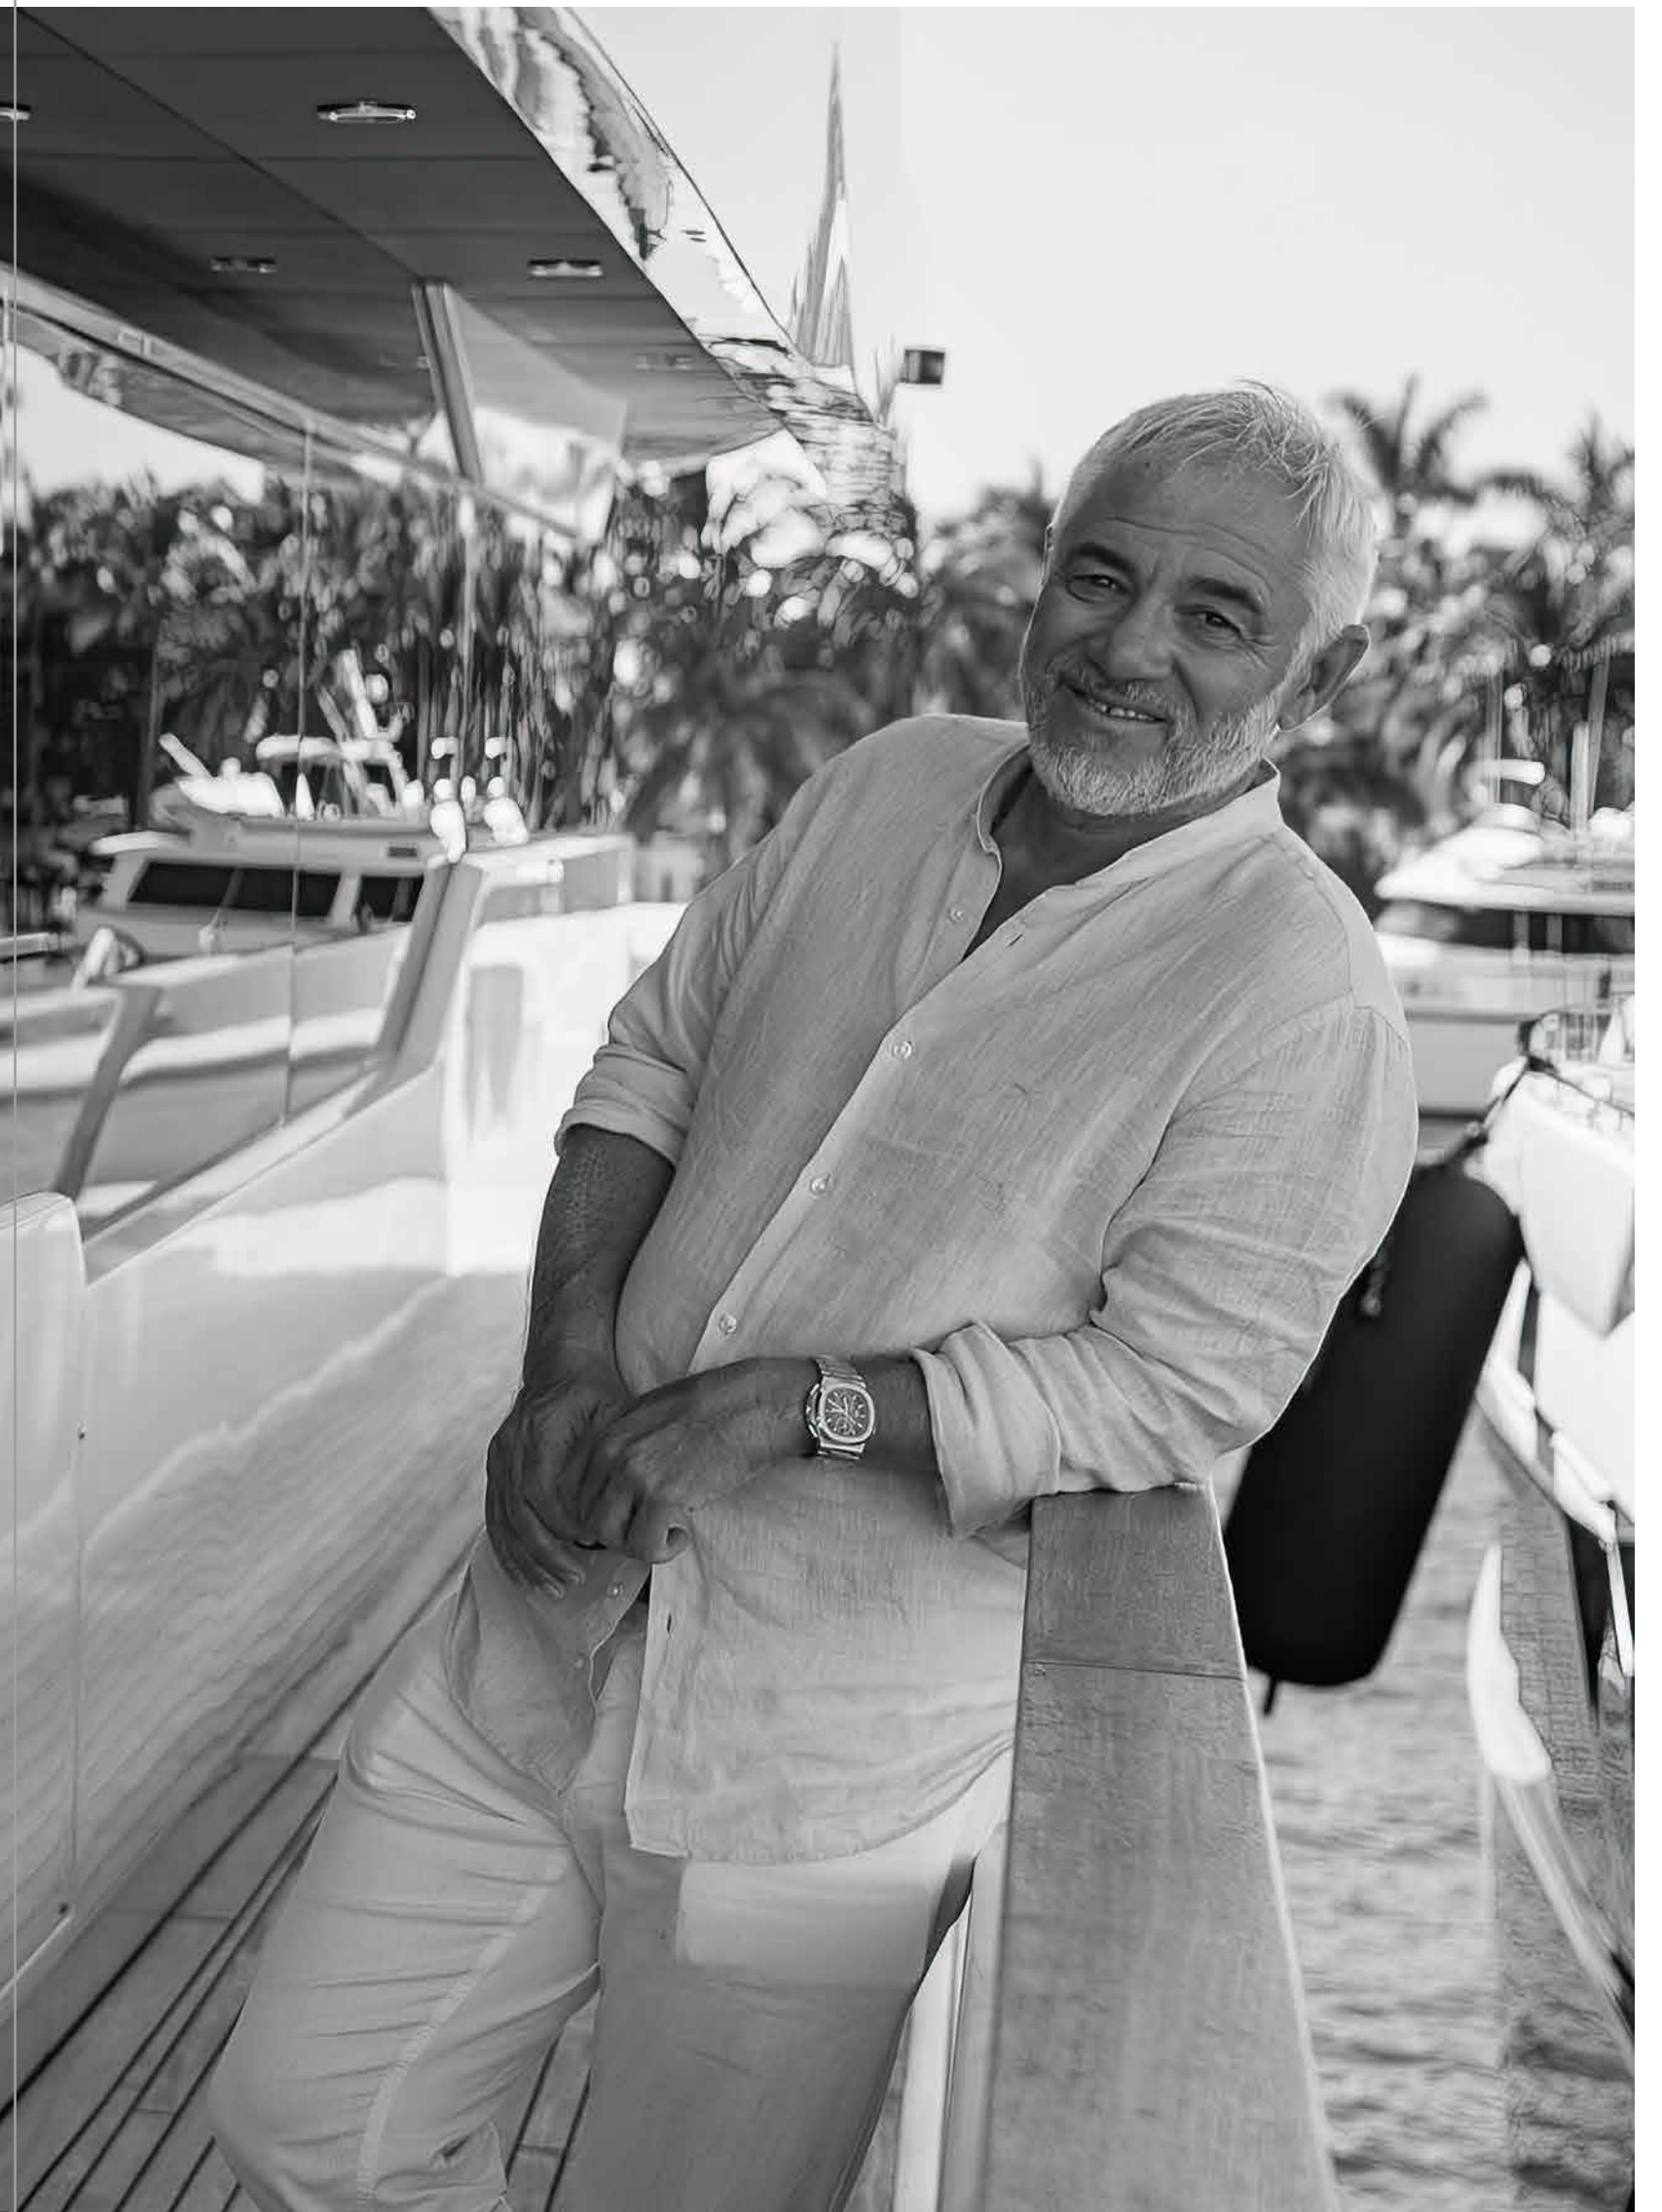

As we continue to evolve, we are pleased to welcome Patrik as our new CEO, marking an exciting new chapter for the company. At the same time, we remain focused on what has always driven us: developing new projects, refining our yachts, and improving every aspect of our products and customer experience every day.

Thank you for your continued support and
for being a part of the Numarine family.

Keep Exploring.

Ömer Malaz

FOUNDER & CHAIRMAN

NAVIGATING THE SPIRIT OF EXPLORATION

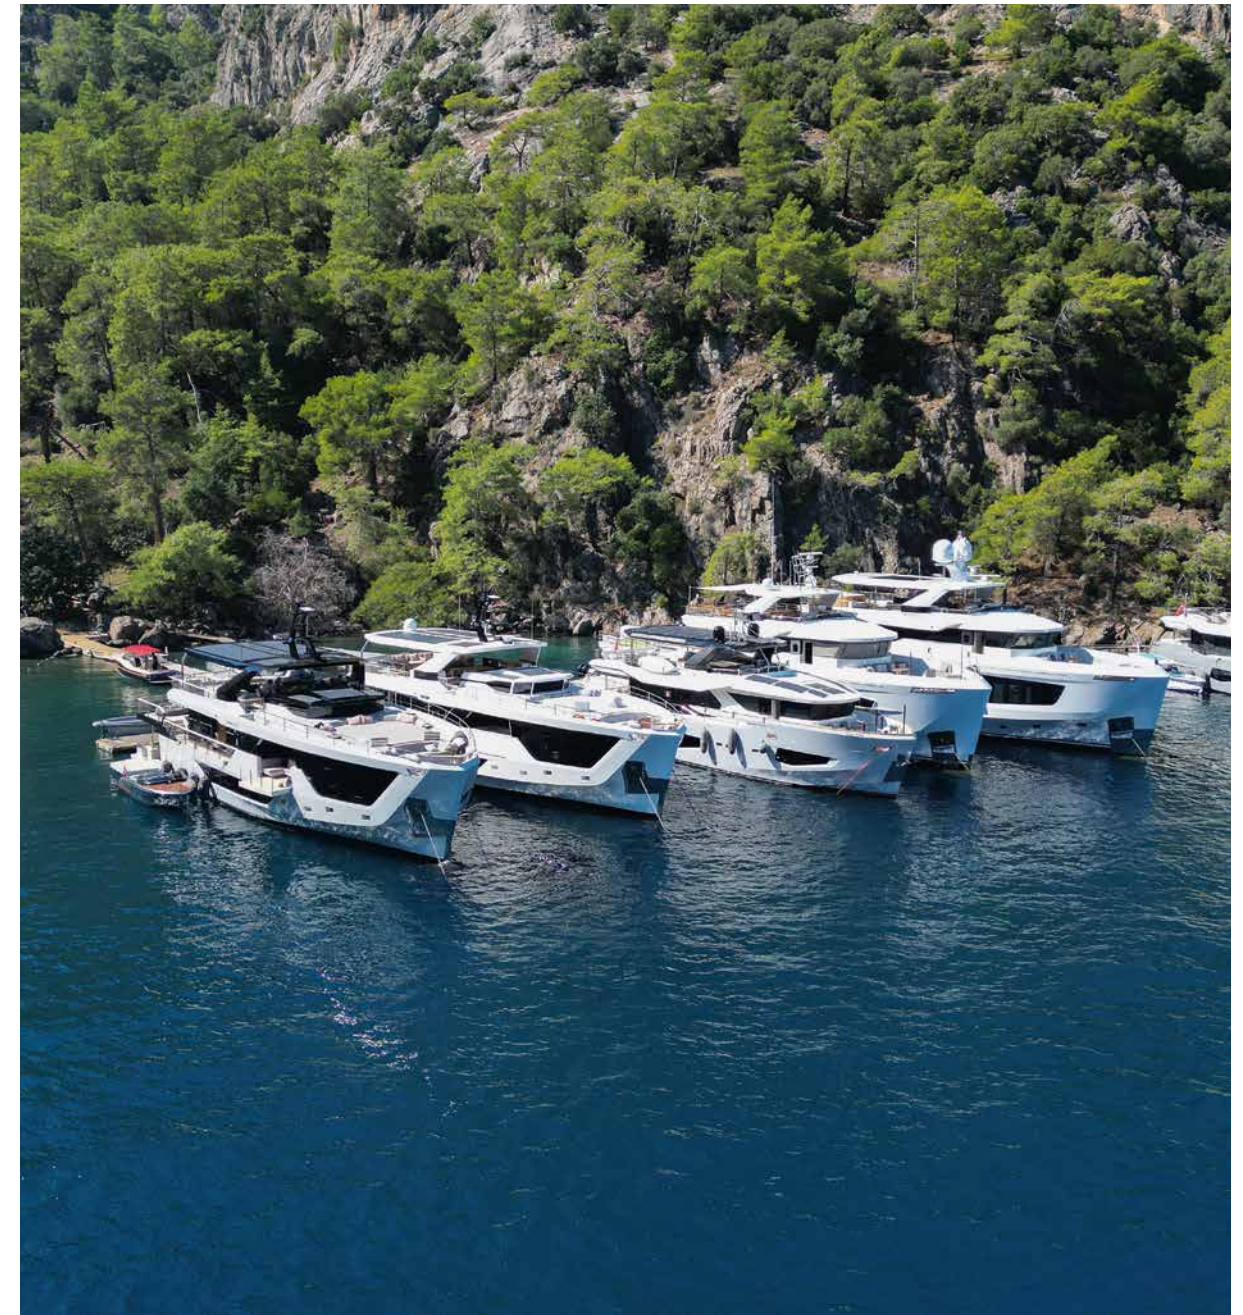

The desire to explore is one of humanity's oldest instincts.
To wonder what lies beyond the horizon, to set sail toward the unknown...
This impulse has inspired explorers for centuries and now comes alive in modern explorer yachts.

Numarine's explorer series interprets this spirit of discovery with a contemporary touch. These yachts are more than mere vessels they transform every journey into an unforgettable experience, inviting a continuous dialogue with the sea and the spirit of adventure. Spacious living areas, long-range capabilities, and comfort-focused design seamlessly blend luxury with exploration.

On an explorer-class journey, time spent at sea becomes extraordinary. Robust hull construction and safety-oriented engineering make it possible to venture confidently to distant destinations. Advanced stabilization systems ensure comfort even in rough seas, while panoramic windows and open decks offer a boundless connection to the horizon. Intelligently designed interiors make life onboard practical, yet effortlessly enjoyable.

Modern navigation systems and automated controls simplify complex maneuvers, allowing sailors to focus on the joy of the journey. Ample storage for fuel, water, and provisions supports extended voyages, while efficient hull design and powerful engines maximize range and reduce fuel consumption. Together, these technical advantages ensure that every long-distance adventure is safe, comfortable, and exhilarating.

Modern navigation systems and automated controls simplify complex maneuvers, allowing sailors to focus on the joy of the journey. Ample storage for fuel, water, and provisions supports extended voyages, while efficient hull design and powerful engines maximize range and reduce fuel consumption. Together, these technical advantages ensure that every long-distance adventure is safe, comfortable, and exhilarating.

Designed to deliver comfort, safety, and reliability in challenging sea conditions, Numarine yachts have the capability to undertake transoceanic passages, allowing owners to confidently explore remote destinations and cross oceans while enjoying the comfort and refinement of a luxury yacht.

Yet exploration is not just about reaching new shores it is also a responsibility. Numarine's advanced engineering and sustainable approach reflect a deep respect for the seas in every detail. True exploration, after all, involves not only seeing the world but also protecting it.

Ultimately, the spirit of exploration is an invitation: to new horizons, to the unknown, and perhaps most of all, to ourselves. Explorer journeys answer this call with strength, comfort, and freedom, turning every route into a gateway to the endless possibilities the sea has to offer.

A TIMELESS EXPRESSION

Built upon Numarine's proven explorer platform, the Classic Line brings timeless yacht design together with the capability, comfort and long-range confidence that define the brand today. Combining enduring elegance with long-range capability, it offers a quieter, more refined expression of the explorer philosophy, created for owners who value authenticity, craftsmanship and the freedom to travel without compromise.

The Numarine Classic Line was born from a simple idea: to rediscover the timeless principles of yacht design. After years of developing highly capable contemporary explorer yachts, there came a natural moment to reflect. The intention was never to look backwards, but to reconnect with the enduring values that have always defined great yachts; proportion, simplicity, craftsmanship and a quieter expression of elegance.

For designer Can Yalman, the Classic Line represents the natural evolution of more than two decades of collaboration with Numarine. While the brand has become synonymous with explorer yachts, he sees this new collection not as a departure from that philosophy, but as its next chapter. "The Classic Line emerged quite naturally from a period of reflection," he explains.

*"It was not about looking backwards,
but about rediscovering certain values, proportion, simplicity and a quieter form of elegance."*

THE EVOLUTION OF AN IDEA

Since the beginning of Numarine's journey, design has always centred on the experience of the owner. Early models established a distinctive visual identity through expressive, almost organic forms that stood apart within the market. As owners' ambitions evolved, however, so too did the yachts themselves. Greater range, larger living spaces and the desire to spend longer periods at sea naturally led Numarine towards the explorer concept. Rather than treating exploration as a stylistic exercise, the company embraced it as a philosophy built around autonomy, capability and life beyond the marina.

"The explorer identity is fundamentally a philosophy of use," says Yalman. "It is about autonomy, capability and the freedom to travel without limitations." The Classic Line builds directly on that philosophy. Rather than replacing the explorer concept, it offers another interpretation of it, one expressed through timeless proportions, restrained elegance and an enduring sense of balance.

CLASSIC DESIGN, CONTEMPORARY CAPABILITY

Inspired by traditional gentleman's yachts, historic expedition vessels and some of the most enduring names in naval architecture, the Classic Line embraces a more understated design language. References to iconic yachts such as 'Savarona', together with the work of designers including William Fife III and Nathaniel Herreshoff, helped shape its philosophy by embracing the values that made those yachts timeless. Yet the result remains unmistakably Numarine.

Built upon the company's proven explorer platform, the Classic Line combines refined aesthetics with the engineering, seaworthiness and long-range capability that define every Numarine explorer yacht. Beneath its elegant profile lies the same confidence and practicality developed through years of building yachts designed to venture farther and remain at sea longer. As Yalman explains, "The goal was to create something that feels enduring rather than momentary."

TWO DISTINCT PERSONALITIES

The philosophy takes shape through two complementary models, each offering its own interpretation of modern yachting. The 38XPC expresses the classic explorer spirit through protected walkways, generous exterior decks and inviting social spaces. Designed for long passages as well as peaceful days at anchor, it combines timeless styling with the confidence, comfort and practicality expected from a true long-range explorer.

The 39MXPC approaches the same philosophy from a different perspective. Its distinctive open stern transforms the aft deck into a generous terrace over the water, creating an effortless connection with the sea. Whether swimming directly from the platform, gathering with guests or simply enjoying life outdoors, the yacht brings together the atmosphere of a Mediterranean beach club with the capability of an explorer platform. Different in character, both yachts remain united by the same design principles: purposeful, balanced and built for extended life at sea.

DESIGNED TO ENDURE

Inside, the Classic Line continues its philosophy of quiet refinement.

Warm natural woods, carefully crafted nautical detailing and timeless materials create interiors that feel calm, welcoming and authentic. Rather than following passing trends, every element has been selected for longevity—spaces designed to mature gracefully and remain relevant for years to come.

For Yalman, this reflects a broader shift in contemporary luxury. “There has been a growing interest in returning to the essence of design,” he says. “Reducing visual noise, removing unnecessary elements and focusing on what truly matters.” It is an approach that values atmosphere over spectacle and lasting quality over temporary fashion.

QUIET CONFIDENCE

The Classic Line expands Numarine’s vision without changing its identity. If the XP Series expresses the explorer philosophy through bold contemporary forms, the Classic Line explores the same values with greater restraint. It is less about visual impact than quiet confidence; less about following trends than creating designs capable of remaining relevant for decades.

Ultimately, it reflects the same belief that has guided Numarine from the beginning: that true luxury is not defined by excess, but by freedom.

The freedom to travel farther. The freedom to remain longer. And now, the freedom to experience exploration through a timeless expression of design. More than a new collection, the Classic Line represents another expression of Numarine’s design philosophy, one that proves timeless elegance and genuine explorer capability can belong to the same yacht.

Leading the Next Horizon *with* Patrik von Sydow

PATRIK VON SYDOW

Returning to Numarine as CEO, Patrik von Sydow brings more than three decades of international leadership in engineering, manufacturing and yacht building. In this conversation, he reflects on the evolving meaning of exploration, the future of long-range yachting and why the strongest companies, much like great yachts, are built with purpose rather than spectacle.

Some leaders inherit companies. Others return to them with a renewed sense of purpose. For Patrik von Sydow, returning to Numarine is not about looking back. It is about building on a strong foundation and helping shape the company's next chapter. With an engineer's mindset and a deep appreciation for craftsmanship, people and continuous improvement, he sees Numarine's future not simply in building exceptional explorer yachts, but in creating the confidence, freedom and experiences that inspire owners to venture further than ever before.

Who are you beyond your title, and what should people know about the person leading Numarine today?

PATRIK VON SYDOW: At heart, I have always been an engineer. Throughout my career, I have been driven by a fascination with how products are conceived, how technology evolves and, above all, how talented people come together to create something truly exceptional. Across automotive manufacturing, advanced engineering and yacht building, the objective has always been the same: turning expertise, creativity and collaboration into something greater than the sum of its parts. If there is one lesson that has stayed with me over the years, it is that lasting success is never the achievement of one individual. It is built on shared purpose, clear direction and teams that are empowered to pursue excellence every single day. Continuous improvement has been a guiding principle throughout my career, and it remains at the heart of how I lead Numarine today.

You have spent more than three decades leading businesses across manufacturing, engineering and yachting. What lessons from that journey do you bring to Numarine today?

PATRIK VON SYDOW: I have been fortunate to work across industries that, while very different on the surface, are united by the same fundamental principles: engineering excellence, uncompromising quality, continuous innovation and, perhaps most importantly, the ability to inspire people to perform at their very best. Those experiences have also taught me that the strongest companies are the ones that never become complacent. They continue to evolve while remaining true to the values and identity that define them. I believe that balance between progress and authenticity is one of the greatest strengths any brand can have, and it is a philosophy that feels especially relevant to Numarine as we continue to shape the next chapter of its journey.

How has your leadership style evolved throughout your career, and what did returning to Numarine mean to you personally?

PATRIK VON SYDOW: For me, leadership begins with clarity. People do their best work when they understand the direction, the priorities and the purpose behind what they are doing. Returning to Numarine feels special because it is built on such a strong foundation. Many of the people I work with today are colleagues I knew from my previous time with the company, and it is immensely rewarding to see how far Numarine has progressed. At the same time, I did not return simply to revisit the past. I returned because I believe the company has an exciting future ahead, and because I wanted to be part of shaping the next chapter of that journey.

Looking at Numarine today,
what impressed you most when you returned?

PATRIK VON SYDOW: In many ways, it does feel like coming home. Yet Numarine has evolved beyond recognition across every aspect of the business. What impressed me most was the scale and discipline of the operation today: the structured quality control, the clear production processes and the way feedback is integrated throughout the build. The level of team involvement is remarkable, and that directly translates into consistency, reliability and confidence for our owners. Design has always been one of Numarine's strongest differentiators, led by Can Yalman. But today, I can also say very clearly that Numarine delivers tangible user advantages in capability, efficiency and comfort, particularly across the XP range and its exploration-focused philosophy.

For readers who may be discovering the brand for the first time, how
would you describe Numarine?

PATRIK VON SYDOW: Numarine builds yachts with a very clear sense of purpose. Every design decision begins with how an owner will actually use the yacht, and how we can make that experience better. Our explorer yachts bring together long-range capability, intelligent design, comfort and efficiency in a way that encourages owners to use their yachts extensively and with confidence. Whether that means crossing oceans or spending a summer exploring local waters, the yacht should always enable memorable experiences.

Exploration is a word closely associated with Numarine. What does
exploration mean to you?

PATRIK VON SYDOW: Exploration means different things to different people. For some, it may mean crossing oceans and reaching destinations few yachts ever visit. For others, it may simply mean discovering a new bay, a new coastline or spending meaningful time with family and friends. What matters is the freedom to choose your own journey. A Numarine should give owners the confidence to go further if they wish, while remaining equally enjoyable for local cruising. Ultimately, exploration is about possibilities.

How have yacht owners changed over the past decade?

PATRIK VON SYDOW: Today's owners are increasingly experience-driven. They place enormous value on their time and want to make the most of it. Many are looking beyond traditional cruising patterns and are more interested in meaningful experiences, whether that means spending longer periods onboard with family, working remotely from beautiful locations or exploring destinations beyond the usual routes. This has naturally increased interest in yachts that offer flexibility, autonomy and ease of ownership.

Are owners using their yachts differently today than they did when you
first entered the industry?

PATRIK VON SYDOW: Absolutely. We see owners becoming increasingly confident about venturing further from their home waters and embracing more ambitious cruising plans. One of the best examples comes from our 37XP fleet. Atlantic crossings have become almost routine, with multiple crossings taking place each year. One particular 37XP crossed the Atlantic from the Mediterranean to the United States, later crossed the Pacific Ocean to Fiji, continued to New Zealand and is currently cruising Asian waters. These journeys are remarkable in their own right, but they also show how owners are increasingly using their yachts as genuine exploration platforms rather than limiting themselves to traditional cruising grounds.

What role does innovation play in Numarine's future?

PATRIK VON SYDOW: Innovation is essential, but it must always serve a purpose. We continue to invest heavily in engineering, production technologies and product development. At the same time, innovation can also be found in the way we use space, improve comfort, simplify ownership and help owners spend more quality time onboard. The best innovation is often the kind that feels effortless to the owner.

What excites you most about the future of Numarine?

PATRIK VON SYDOW: What excites me most is the opportunity ahead. We have an exceptional team, a clear identity and a growing international reputation. The continued evolution of our explorer philosophy, the launch of new models and the increasing global reach of the brand are all exciting developments. Most importantly, we have owners who genuinely use and enjoy their yachts, and their experiences continue to inspire future generations of Numarine designs.

Numarine has built its reputation around explorer yachts. Where do you
see this segment heading over the next decade?

PATRIK VON SYDOW: The explorer segment continues to evolve as owners place greater emphasis on experiences, flexibility and meaningful travel. I believe demand will continue to grow for yachts that combine genuine capability with comfort and ease of use. Owners increasingly want the confidence to travel further when they choose, while maintaining the same standards of comfort they enjoy closer to home.

Beyond the yachts themselves, what kind of company do you want
Numarine to be known as?

PATRIK VON SYDOW: I would like Numarine to be recognised not only for exceptional yachts, but also for exceptional people. A strong culture is one of the most important foundations of any successful company. The passion, dedication and expertise of our teams are reflected in every yacht we build. Maintaining that culture while continuing to grow is extremely important to me.

When readers open Insight ten years from now, what would you like them
to say about Numarine's journey during your time as CEO?

PATRIK VON SYDOW: I would like them to say that Numarine remained true to its explorer DNA while continuing to raise standards in design, engineering and owner experience. Success is not measured only by growth or by the number of yachts delivered. It is also measured by the journeys we enable, the experiences we create and the trust owners place in our yachts. If we continue to inspire exploration while remaining authentic to who we are, I believe we will have achieved something very special.

Patrik von Sydow
CEO

LIVING ONBOARD WITH ALARA MALAZ

Alara
Malaz

For some, the sea is an escape.

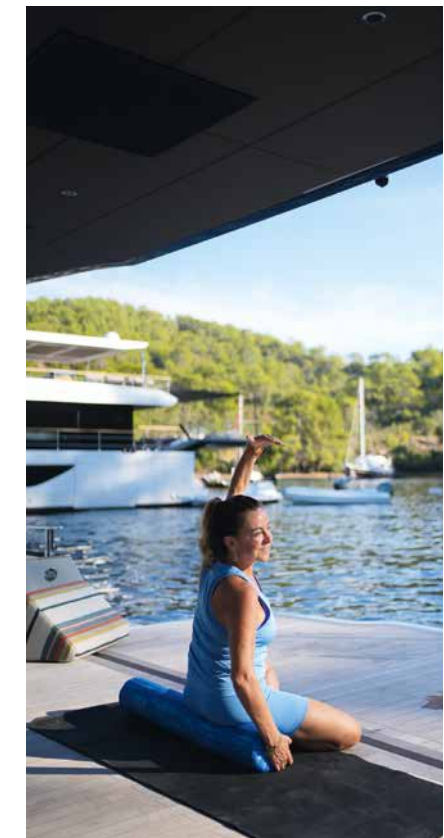

For Alara Malaz, it has always been a way of life. Aboard the Numarine 30XP, luxury is defined not by extravagance, but by serenity, privacy and an uninterrupted connection with the sea. From meditation and long passages to family life and longevity, she shares how life on board has become an extension of her philosophy of well-being.

A holistic health coach, Alara Malaz has spent many years advocating wellness, mindful nutrition and healthy ageing. With well-being at the heart of her daily life, she has also nurtured a lifelong relationship with the sea. Today, alongside Ömer Malaz, she continues to embrace a life deeply connected to the sea.

For Alara Malaz, the Numarine 30XP is a natural extension of that philosophy. With its generous living spaces, exceptionally quiet cruising and seamless connection to the sea, the 30XP has become far more than a yacht. It is a place of calm, privacy and balance. We spoke with her about the meaning of true luxury, memorable journeys, and why the horizon remains her favourite view.

Which voyage surprised you the most this season?

ALARA MALAZ: This year was the first time we truly experienced what the yacht is capable of. Because of Ömer's work, we had to change our plans and make the passage from Folegandros back to Türkiye in one continuous journey. We were underway for around fourteen to fifteen hours. To be honest, the idea of such a long passage felt quite daunting beforehand. I kept wondering how it would feel. But it turned out to be one of the easiest and most enjoyable journeys we've ever made. The weather was beautiful, and the yacht moved so effortlessly through the water that it reminded me of sailing. Everything felt effortless; all we could hear was the sound of the sea. Just the sound of the sea and an incredible feeling of calm. That sense of serenity stayed with us throughout the entire passage. Normally, when we have longer crossings of five or six hours, we travel overnight. The captain departs before dawn while we sleep, and we wake up already at our destination. Experiencing such a long journey entirely during the day was something completely different. Spending hour after hour surrounded by nothing but the sea made it an unforgettable experience. I honestly didn't notice the hours passing.

What does true luxury mean to you?

ALARA MALAZ: For me, true luxury is being able to live this close to the sea. Waking up and exercising, swimming whenever I want, spending time in the sun, sitting with friends and enjoying long conversations... It's about spending the entire day connected to the water. The fold-down beach club platforms completely transform the yacht. They create such an expansive living space that gives me a feeling of infinity. Being able to spend so much time right at sea level is an incredible privilege. I love exercising, so being able to work out on board, then step straight into the sea, relax in the sun and spend the rest of the day with family and friends, having all of that in one place, is my definition of luxury.

You grew up surrounded by the sea. Do you still experience the same emotions every time you set out?

ALARA MALAZ: Absolutely. My father was a passionate sailor, so I grew up on the water. I know exactly what it feels like to travel with nothing but the sound of the wind and the sea around you. The 30XP gives me that same feeling. It's an incredibly peaceful experience because you're not overwhelmed by engine noise. Instead, you hear the sea. You feel the movement of the water. That's the feeling I love most.

The sea has always been one of the greatest passions of my life. It has been with me since childhood. Ömer and I have been cherishing the same passion on board Minella. Today, the sea is something we both love deeply. We love being on the water, listening to the waves, feeling the wind and embracing the sense of peace that comes with it.

Weather at sea isn't always perfect. How does life on board change when conditions become more challenging?

ALARA MALAZ: Of course, the weather isn't always ideal. But after so many years, we've learned to read both the sea and the wind. When necessary, we simply find a sheltered bay and wait comfortably. What I love about the 30XP is that even when you're inside, you never feel confined. The large windows flood the interior with natural light, so it always feels bright and open. There have been occasions when it rained heavily for two days straight and we couldn't spend time outside at all. Yet I never felt bored; not for a single moment. Neither did our dogs. The interior is so spacious and comfortable that even when you're indoors, you never lose your connection with the sea.

Your family is clearly an important part of life on board. How have they adapted to this lifestyle?

ALARA MALAZ: We've had so many wonderful moments with them on board. Our 2 daughters grew up on Numarine yachts since the day they were born and they are also very passionate about the sea life. After graduating from university they both started working abroad. Now they can only visit us shortly.

We also have 2 dogs and they have been mascots of Minella. They have been accompanying us to the boat since they were puppies. They're still young, so we're gradually teaching them to go ashore by themselves and take care of their needs independently. For now, we take them ashore by tender. Sometimes my daughter and I even put them on a paddleboard and paddle them to the beach ourselves. Those little trips have become some of our favourite memories. They absolutely love being on the yacht. They have plenty of room to move around and they enjoy this lifestyle just as much as we do.

THE EVOLUTION OF FREEDOM

Built upon the success of one of Numarine's most admired models, 26XP, the 27XP refines a proven platform for a new generation of owners. Through greater comfort, thoughtful design and an effortless connection to life at sea, it reflects a contemporary vision of exploration, one where the journey is defined not by speed, but by the freedom to stay longer, travel farther and experience more.

The evolution of the 26XP is not about changing what made the model successful in the first place. It is about understanding how the expectations of experienced owners have changed over time and refining a proven platform to meet those new priorities. While capability, range and seaworthiness remain at the heart of every XP yacht, today's owners are increasingly looking for something beyond performance alone. They want the comfort to spend weeks onboard, the flexibility to cruise at their own pace and spaces that feel as welcoming as home. The 27XP responds to that shift with greater volume, enhanced livability and a design philosophy centred on making every day at sea more enjoyable.

From Speed to Comfort

For many owners, the journey to the 27XP begins long before they step onboard. It often starts with fast motor yachts, where speed and performance are central to the experience. As years of cruising accumulate, however, priorities naturally begin to evolve.

That progression is reflected in the evolution of the XP Series itself. The move from performance yachts to the 22XP introduced a different way of experiencing the sea. Greater interior volume, generous exterior spaces and long-range capability encouraged owners to slow down and enjoy the journey rather than simply the destination. Even those who initially believed they would still value higher speeds often discovered that the extra performance was rarely used. Instead, what truly transformed the onboard experience was the freedom to remain at anchor longer, cruise further and spend more meaningful time with family and friends. The arrival of the 27XP takes that philosophy one step further. Rather than asking owners to compromise between capability and comfort, it combines both in a yacht designed for the realities of modern cruising.

Designed for Life Onboard

The strength of the 27XP lies in its refinement. Rather than reinventing a successful concept, Numarine has carefully developed every aspect of the yacht to support the way people actually use it. The additional volume creates a greater sense of openness throughout the interior, while the layout encourages a seamless transition between private accommodation, social living areas and expansive exterior decks. Every decision serves a purpose, making the yacht feel equally suited to a quiet morning at anchor, an afternoon spent underway or an evening entertaining family and friends.

For owners seeking even greater flexibility, the Numarine 27XP is available with an optional five-cabin configuration featuring a spacious VIP suite on the main deck. By relocating the wheelhouse to the enclosed flybridge, the main deck is transformed into a light-filled guest retreat, offering the convenience and comfort of single-level living for family members or guests who prefer to avoid stairs. This thoughtful layout increases accommodation to up to ten guests without compromising the yacht's signature sense of openness, creating an exceptionally versatile explorer designed for extended cruising and multi-generational adventures.

A New Chapter In Modern Exploration

Designed for owners who spend entire seasons cruising rather than occasional weekends away, the 27XP feels at home on journeys that stretch far beyond familiar coastlines. Routes through the Aegean, the Corinth Canal, the Ionian Islands, Sicily, the Italian coastline and the Côte d'Azur perfectly reflect the type of cruising for which the yacht was conceived; long, unhurried voyages where the experience is shaped by the journey itself. In many ways, the 27XP represents more than the evolution of a successful model. It reflects the evolution of its owners. As priorities shift from speed to comfort and from performance to livability, expectations change, and yacht design evolves alongside them.

A TRUE EXPLORER

From Türkiye to New Zealand, Wildberry's journey is a demonstration of what true exploration requires. Aboard the Numarine 37XP, more than 28.000 miles became a measure of range, resilience and purpose, from the familiar waters of the Mediterranean to the Atlantic, the Pacific and some of the world's most remote cruising grounds. In every mile, the voyage revealed the essence of an explorer yacht: the confidence to go farther, the autonomy to stay longer and the awareness to move through the ocean with respect.

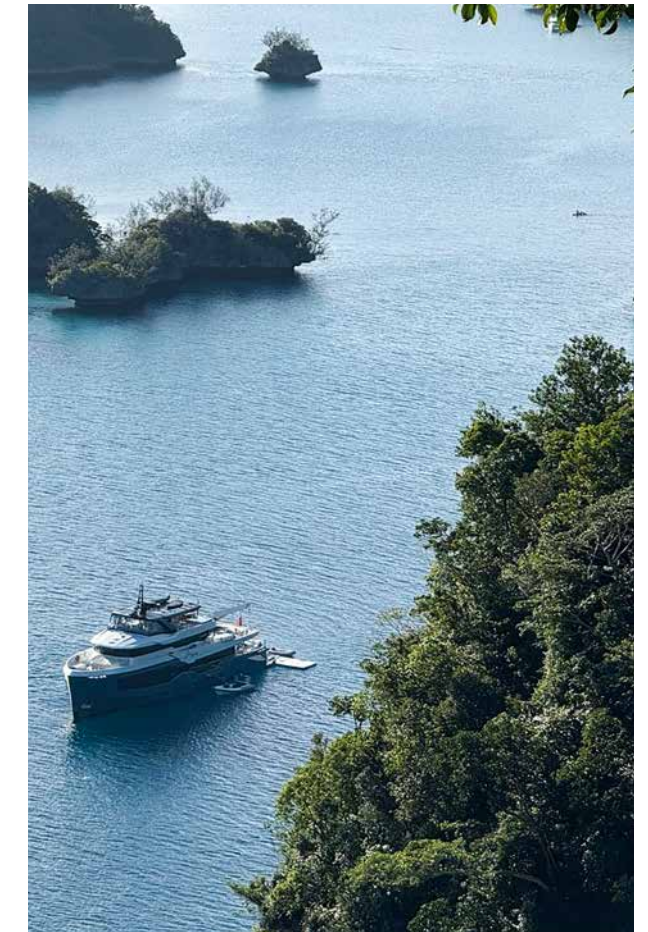

FROM TÜRKİYE TO THE OCEAN

Every long voyage begins with a single departure, but few continue across continents and oceans. Wildberry left Türkiye and followed one of the world's great explorer routes, tracing a course through the Mediterranean before continuing west towards Spain and Cape Verde. From there, the familiar rhythm of coastal cruising gave way to something entirely different.

The Atlantic crossing marked the beginning of a true expedition, where distance, weather and self-sufficiency would shape every decision. The route would eventually lead through the Caribbean, across the Panama Canal and into the vast Pacific before reaching New Zealand, covering more than 12,000 nautical miles through some of the world's most remote cruising grounds.

This was never a voyage about reaching a destination as quickly as possible. It was about proving what a genuine explorer yacht is capable of when placed in the environment it was built for.

BUILT FOR THE LONG PASSAGE

Ocean crossings reveal a yacht's character in ways that coastal cruising never can. Days become weeks. Weather systems replace marina schedules. Every decision depends on preparation, reliability and confidence in the vessel beneath your feet. For the captain and crew, the Numarine 37XP proved exactly why she had been selected for the expedition. Her steel displacement hull delivered reassuring stability in open-ocean swell, while her long-range efficiency offered the flexibility required for extended passages far from shore. Spacious interiors and generous storage supported life on board during weeks at sea, where comfort is not simply a luxury but an essential part of maintaining crew performance.

As the captain reflects, long-range capability becomes much more than a figure on a specification sheet once you are crossing oceans. It becomes part of your safety margin, allowing routes and weather strategies to be planned with confidence. Throughout thousands of nautical miles, the yacht consistently demonstrated the balance of capability, reliability and comfort that defines the XP Series.

LIFE IS AN ADVENTURE

OUR JOURNEY. OUR STORY.

← 28.000 Miles →

OUR PHILOSOPHY
It's not about the destination,
it's about the journey.

BEYOND PRIVATE CRUISING

From the outset, Wildberry was envisioned as something more than a yacht for private cruising. The ambition behind the expedition was shared by the owner, captain and crew: to create a platform that could combine long-range exploration with education and ocean awareness. That purpose has shaped the voyage from the very beginning. Rather than simply moving from destination to destination, the yacht has supported scientific research, marine conservation initiatives and collaborations with specialists working to better understand and protect the world's oceans.

In remote regions where access is often difficult, an explorer yacht offers something uniquely valuable. It can transport researchers, equipment and expertise to places that would otherwise remain out of reach, serving not only as transportation but as a practical base for observation, documentation and collaboration. The expedition demonstrates how modern explorer yachts can contribute beyond leisure cruising, transforming capability into something with lasting value.

LESSONS FROM THE OCEAN

Thousands of miles at sea inevitably change the way the world is seen. Throughout the expedition, the crew encountered extraordinary marine environments, from vibrant coastlines and remote islands to vast stretches of open ocean where the nearest land lay days away. Those experiences also revealed the growing pressures facing the marine environment, including plastic pollution, stressed coral reefs and the visible effects of climate change.

Yet alongside these challenges came reasons for optimism. Across many of the regions visited, scientists, conservation organisations and local communities are working tirelessly to protect fragile ecosystems. For the crew, witnessing these efforts first-hand reinforced an important belief: exploration should deepen our understanding of the places we visit and strengthen our responsibility towards them. As the captain explains, the more of the world we discover, the greater our responsibility becomes to protect it.

THE PROOF OF A TRUE EXPLORER

A line drawn across a chart can never fully capture a journey of this scale. It cannot describe the Atlantic swells, the endless horizon of the Pacific or the quiet satisfaction of making landfall after days at sea. Nor can it reflect the teamwork, preparation and resilience required to complete such a voyage safely. What it can demonstrate is something equally significant.

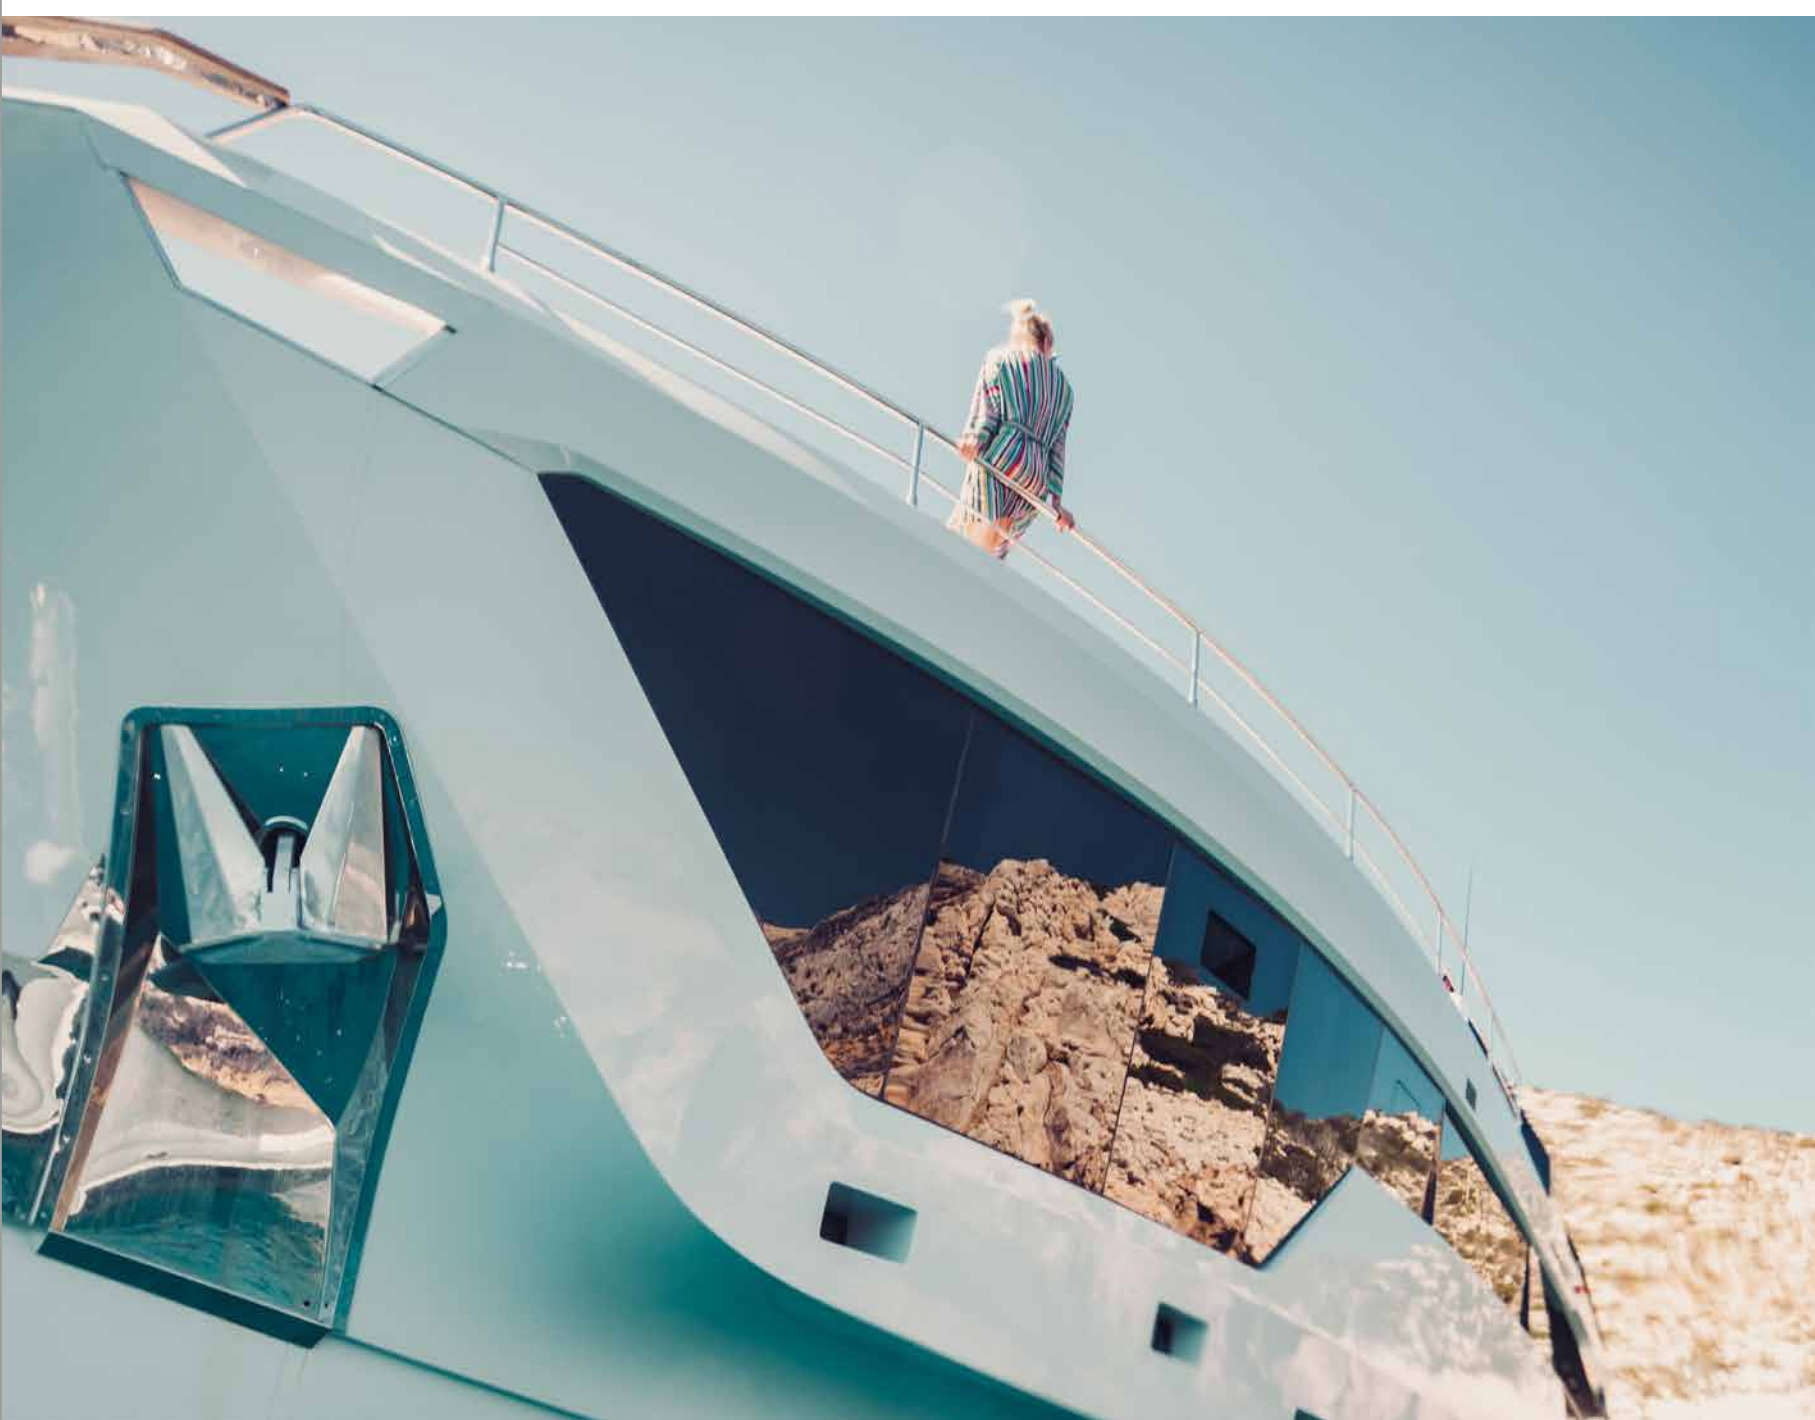

Wildberry has shown that the Numarine 37XP is more than capable of undertaking one of the world's great long-distance cruising routes. She has crossed oceans with confidence, supported meaningful scientific and environmental initiatives, and transformed an ambitious itinerary into a compelling demonstration of what an explorer yacht can achieve. For Numarine, this journey is more than a remarkable chapter in one yacht's story. It is a testament to the philosophy behind every XP: that exploration is not defined by how far you travel, but by how confidently, and how responsibly, you are able to go.

NEW ANCHORS

New Horizons
from America to Europe with Numarine

The wind of the Atlantic,
the elegance of the Mediterranean,
the tropical allure of the Caribbean...
With Numarine yachts, new anchors, new stories, and new horizons await you.

America: From Coastlines to Open Seas

FLORIDA KEYS & MIAMI

Setting sail from Miami's modern marinas toward the bohemian spirit of Key West is one of the most delightful routes along the Atlantic coast. Shallow reefs for diving stops, palm-fringed coves, and a tropical atmosphere... The agility and range of the 27XP make it the perfect companion for this journey.

INSIDER TIP: Navigate at low speed around the coral reefs near Key Largo. Currents are calmer in the early morning hours, making it the safest time to pass.

NEW ENGLAND-CAPE COD & NANTUCKET

The nostalgic face of American yachting... Cape Cod's misty lighthouses, Nantucket's cobblestone streets, and Martha's Vineyard's tranquil bays bring history and nature together. Long summer days offer a serene yet characterful cruising experience.

INSIDER TIP: Expect heavy fog in the area. Using radar and AIS is essential for safe navigation. Tidal currents, especially around Nantucket, can be strong and should be factored into your route planning.

CALIFORNIA COAST-SANTA BARBARA & CHANNEL ISLANDS

The Pacific route where urban life meets wilderness... Depart from Los Angeles, cruise to Santa Barbara, and on to the sheltered bays of the Channel Islands. With Numarine, it becomes a journey of contrasts in their most elegant form.

INSIDER TIP: Winds around the Channel Islands usually intensify in the afternoon. Setting off in the morning ensures a more comfortable passage.

SEA OF CORTEZ-MEXICO

Along Baja California's coast lies the Sea of Cortez, a pristine sea surrounded by natural wonders. Whales, dolphins, sea lions... Small fishing villages and secluded bays create unique stopovers for yacht travelers.

INSIDER TIP: Northern winds (Nortes) can suddenly strengthen around La Paz. When anchoring, let out extra chain for a safe overnight stay.

Europe: The Classic Mediterranean, the Mystery of the Adriatic

SOUTH OF FRANCE (ST. TROPEZ-MONACO)

The Côte d'Azur is the brightest star of the Mediterranean. From the lively nights of St. Tropez to Monaco's prestigious port and Cannes' festival spirit, the experience becomes a flawless summer stage aboard Numarine.

INSIDER TIP: Marinas fill up quickly during peak season. Reservations should be made in advance. Afternoon coastal winds can be strong, so morning departures are more comfortable.

MALLORCA & IBIZA-BALEARIC ISLANDS

From Mallorca's hidden coves to the vibrant rhythm of Ibiza... The Balearics are the definition of variety for yacht travelers. The coastal landscapes of the Serra de Tramuntana are balanced by Formentera's calm, crystal waters.

INSIDER TIP: The seagrass (posidonia) in Formentera is protected. Only anchor in permitted zones to protect the environment and avoid fines.

GREECE-AEGEAN & IONIAN ISLANDS

The Aegean's meltemi winds, harbors lined with whitewashed houses, Santorini's sunsets, Mykonos' energy... Combined with the calm nature of the Ionian Islands, the Greek route offers one of the most balanced Mediterranean discoveries.

INSIDER TIP: The meltemi winds can reach 20-25 knots in the afternoon. Choosing sheltered bays according to wind direction ensures safer overnight anchorage.

SARDINIA- COSTA SMERALDA

Italy's Mediterranean jewel... Turquoise bays, granite cliffs, Porto Cervo's jet-set marina, and the pristine Maddalena Archipelago make Sardinia unforgettable.

INSIDER TIP: The Maddalena area has many rocky passages. Using sonar and charts is essential for safe navigation.

CROATIA-DALMATIAN COAST

The pearl of the Adriatic... From Dubrovnik's historic walls to Hvar's energetic marina and the serenity of Vis Island, the Croatian route offers endless exploration with its hundreds of islands.

INSIDER TIP: The bora wind can suddenly intensify in summer. Drop a long anchor chain and seek sheltered bays for safe mooring.

New Horizons, New Beginnings

Each Numarine models offer distinct advantages to match the needs of different routes.

Tropical explorations in America,
history and elegance in Europe,
or vibrant living in the Caribbean...

Every model, every anchor, and every journey is a reflection of the Numarine spirit. With Numarine, every voyage is more than just a route, it is a story rewritten on the sea.

THE SOUL ON THE PALATE

We merge the endless thrill of exploring with the unique flavors
of our favorite port cities.
Every taste, every bite, becomes an unforgettable experience.

The greatest joy of being passionate about the sea is freedom, and the most beautiful gift of that freedom is the experiences it brings along. When we arrive somewhere and pursue its most famous taste, it is not only for the culinary experience but also to understand the spirit and lifestyle of its people. Flavors carry a soul with them. We know that every sip and every bite, as they merge with our senses, become etched into our memory and create our finest moments. As Numarine, we have compiled for you eight special port cities and their most remarkable culinary suggestions. To beautiful experiences...

LISBON, PORTUGAL - BACALHAU À BRÁS

With its vast natural harbor opening to the Atlantic, Lisbon stands as one of our premier recommendations. A city where explorers can combine business with a refined social scene, it is also home to Portugal's culinary jewel: salted cod. For centuries a sailor's staple, Bacalhau à Brás transforms this humble ingredient into a sophisticated masterpiece of shredded cod, delicate potato strands, egg, and black olives. To savor this dish against the shimmering backdrop of the Tagus, restaurants such as Sud Lisboa and Feitoria offer a quintessential experience. Here, Lisbon's maritime spirit and gastronomic elegance converge, transforming a meal into an unforgettable evening.

MARBELLA, COSTA DEL SOL - ESPETOS DE SARDINAS

Andalusia marks our second destination. On the sun-drenched shores of Marbella, along the Costa del Sol, Los Bandidos, Nobu Marbella, and La Sala by the Sea stand as refined havens for explorers. Each elegant venue offers a setting where sophistication meets the relaxed charm of the Mediterranean. Here, savoring Espetos de Sardinas, sardines grilled over an open wood fire is more than a meal; it is a celebration of the sea itself. Each bite, imbued with freshness and the warmth of the flames, creates an effortless yet unforgettable memory, capturing the essence of Marbella's coastal charm and refined lifestyle.

MIAMI, ABD - CHURRASCO WITH CHIMICHURRI

When the vibrant spirits of the Caribbean and Latin America collide, they ignite a symphony of flavor, and nowhere embodies this fusion better than Miami. At the heart of the city's gastronomic allure lies Churrasco with Chimichurri, a signature experience for the refined palate. Grilled over open flames, the meat develops a delicate smoky aroma, perfectly balanced by the fresh, herbaceous tang of chimichurri. To fully savor this tropical dream, we recommend dining at Rusty Pelican Miami, Seaspace, Casa Neos, Elia on the River, or Bayshore Club Bar & Grill, each offering a refined setting to make your Miami culinary experience unforgettable.

ST. TROPEZ, FRANCE - BOUILLABAISSE

No list of port cities would be complete without the legendary Saint-Tropez on the French Riviera. Here, Provençal cuisine invites the palate into a world of fresh, light dishes infused with Mediterranean breezes and fragrant herbs. Among its most celebrated treasures, bouillabaisse stands supreme—a rich fish stew, originally from Marseille, reimagined in Saint-Tropez with elegance and sophistication for an unforgettable dining experience. A symphony of fish, shellfish, saffron, and olive oil, each bite encapsulates the essence of the Mediterranean. Along the harbor and its elegant surroundings, explorers can savor the essence of Saint-Tropez and Provençal cuisine at distinguished spots like L'Opéra Saint-Tropez, Le Girelier, La Table du Marché, and La Vague d'Or—where every dish tells the story of the Riviera's timeless allure.

PORTO CERVO, SARDEGNA - CULURGIONES

Amidst the luxurious elegance of Costa Smeralda, Sardinian cuisine unfolds like a dream, with the gentle strains of Italian music setting the scene. At the heart of this experience is culurgiones, a handmade pasta filled with potatoes, pecorino cheese, and mint—a culinary tradition that has graced the island's tables for centuries. Paired with exquisite Sardinian wines, culurgiones become more than a meal; they are a celebration of Porto Cervo's unique and elegant lifestyle, capturing the essence of the island in every bite. ConFusion by Italo Bassi and You Marina stand as elegant Mediterranean havens, perfectly poised for discerning explorers seeking a refined and sophisticated dining experience that captures the essence of Porto Cervo.

GÖCEK - GRILLED SEA BREAM

For those charting a course through the Aegean and Mediterranean, Göcek is a true paradise where sea and nature entwine. Here, the finest flavors of both cuisines converge, and grilled sea bream, sourced from local waters, stands as the quintessential culinary experience. For evenings where you'll savor the spirit of Göcek amid olive oil-infused meze and fragrant Aegean herbs, one essential destination is Yazz Collective. Perfectly embodying the understated luxury of the Mediterranean, Yazz Collective's waterfront location, elegant ambiance, and refined cuisine transform every bite into a celebration of Göcek's sophisticated gastronomy.

ISTANBUL - GRILLED TURBOT

Can one truly dream of Istanbul without savoring its culinary treasures? We think not. Along the pearlescent waters of the Bosphorus, the city's most prized fish—the turbot—beckons. Revered for centuries as a symbol of elegance on Istanbul's tables, each bite promises to immerse you in the city's rich gastronomic heritage. To experience Istanbul in its fullest, the city's most refined addresses reveal themselves along the shimmering Bosphorus. An evening at Sunset Grill & Bar, Banyan, or Feriye Lokantası becomes more than a meal—it transforms into a memory. Each bite, infused with the spirit of the city, paired with unparalleled waterside views, turns every moment into a graceful celebration of Istanbul's culinary elegance.

BODRUM - LAGOS (GROUPE FISH)

In Bodrum, few dishes capture the essence of the region like lagos. Its tender white flesh and rich flavor make it one of the most exquisite offerings in the Bodrum's finest restaurants. In the exclusive beach clubs of Türkbükü and Cennet Koyu, lagos graces the most distinguished tables, a harmonious marriage of tradition and contemporary refinement. To ensure that an evening in Bodrum becomes the defining summer night of a lifetime, we suggest two of the town's most sophisticated addresses: Kocadon Restaurant and Maçakızı. Here, the chef's meticulous interpretations, intertwined with fragrant Aegean herbs, transform each dish into a signature experience, one that leaves an indelible mark on your palate and captures the very essence of Bodrum.

CONFIDENCE AT SEA

EXPLORER YACHTS: EVERYTHING YOU NEED TO KNOW

Explorer yachts are redefining what luxury at sea means today: not only comfort,
but range; not only design, but autonomy;
not only travel, but the freedom to go beyond the expected.

Explorer yachts have become one of the most significant categories in modern yachting, yet the term is often used more widely than it is understood. At its core, an explorer yacht is built for distance, self-sufficiency and confidence at sea. It is designed to go farther, remain at anchor longer and operate beyond the familiar rhythm of marina-to-marina cruising. This is what separates an explorer yacht from a conventional motor yacht. It is not simply a matter of size or style. It is a question of purpose.

DESIGNED TO GO FURTHER

The defining quality of an explorer yacht is range. These yachts are created for owners who want to move beyond traditional cruising grounds and discover places that are harder to reach: remote islands, long ocean passages, northern fjords, quiet anchorages and coastlines where infrastructure is limited.

Long-range fuel capacity, efficient hull design and reliable engineering allow explorer yachts to remain independent for extended periods. In this context, range is not only a technical figure. It becomes freedom. It gives owners and captains the ability to choose routes more confidently, respond to weather more intelligently and stay longer in the places that matter.

BUILT FOR CONFIDENCE AT SEA

Explorer yachts are shaped by the realities of the open ocean. Their hulls, deck layouts, storage capacity and onboard systems are all designed with endurance in mind. Stability, seaworthiness and reliability are essential.

This does not mean that an explorer yacht needs to look severe or industrial. The best examples combine strength with refinement. They carry the practicality required for serious cruising, while still offering the comfort, elegance and calm expected from a contemporary superyacht. That balance is central to the appeal of the category. An explorer yacht must be capable enough to cross oceans, yet comfortable enough to feel like home once it arrives.

LIFE BEYOND THE MARINA

The explorer lifestyle is defined by autonomy. These yachts are designed to support life on board for longer periods, with generous storage, advanced navigation and communication systems, water-making capabilities, efficient power management and practical spaces for tenders, equipment and water toys. For owners, this creates a different relationship with the sea. The yacht is no longer simply a way to move between destinations. It becomes a base for living, discovering and spending meaningful time in remote environments.

Whether the journey leads across the Atlantic, through the Mediterranean, towards island chains or into more challenging cruising grounds, the principle remains the same: an explorer yacht gives its owner the confidence to go beyond the obvious.

COMFORT WITHOUT COMPROMISE

Modern explorer yachts have changed the idea of adventure at sea. Long-range capability no longer means giving up comfort. Spacious interiors, panoramic views, quiet operation, generous decks and carefully planned layouts allow owners and guests to enjoy extended cruising with ease.

The most successful explorer yachts are not divided between rugged exterior and luxurious interior. They bring these qualities together. Design supports function, and function enhances experience. This is where the category has become especially relevant for today's owners. Luxury is no longer defined only by speed, spectacle or square footage. Increasingly, it is defined by privacy, independence, silence and access.

THE FUTURE OF LUXURY ADVENTURE

Explorer yachts reflect a shift in how owners want to experience the sea. The appeal is no longer limited to classic summer routes or familiar ports. Today, the most meaningful journeys are often the ones that offer space, privacy and a deeper connection with the world.

This is why explorer yachts are more than a trend. They answer a modern desire for freedom: the freedom to travel farther, to stay longer, to live more independently and to experience the ocean with comfort, confidence and purpose. In that sense, an explorer yacht is not defined only by where it can go. It is defined by what it makes possible.

NUMARINE INSIGHT

THE YACHTS ON THE SCENE

The Numarine fleet now comprises both the award-winning Explorer Series and the newly introduced Classic Line, offering distinct approaches to life at sea while sharing the same commitment to quality, craftsmanship, and long-range cruising. The Explorer Series includes the 22XP, 27XP, 30XP, 32XP, 37XP, 40MXP, 45XP, and 47MXP models, while the Classic Line introduces the new 38 Classic and 39MXP Classic, combining timeless styling with modern engineering.

NUMARINE 22XP

FREEDOM STARTS HERE

A yacht can make you dream of the most distant horizons without having to give up your favorite port or bay with a tailor-made size. Blending the explorer spirit with a compact design, the 22XP is the entry-level expedition yacht by Numarine.

The Numarine 22XP is the entry-level model for the highly successful XP Series, crafted in response to the clients' demand for compact explorers. The 22XP presents itself as an extraordinary compromise of aesthetics, volume, comfort and operating distance: a entry level floating-world of just 22.60 meters in overall length, and ready to sail the seven seas in safety, serenity and freedom.

The 22XP in fact keeps all the features that have made the fortunate five-model strong Numarine XP range stand out in the exploring vessels market: a flybridge to focus the most unforgettable moments of your cruise, top class performance and a brightness that, thanks to the unmistakable Numarine windows, dazzles even when below deck. All these contribute to the magical atmosphere that the brand unfaithfully delivers.

Designed inside and out by long-term collaborator Can Yalman, the 22XP sports naval architecture penned by Umberto Tagliavini. Equipped with three to four cabins on the lower deck—one of which is full beam—the Numarine 22XP offers accommodation and privacy for up to eight people: eight lucky individuals including you, your loved ones and any others sharing your more personal and happy moments, surrounded by the silence of the open sea, under the sun, or, perhaps, under a starry sky on a magical night at anchor.

NUMARINE 27XP

SHAPED FOR DISCOVERY

The 27XP is where performance meets purpose; an explorer yacht designed for those who seek freedom beyond limits, wrapped in the comfort and luxury only Numarine can deliver. Compact yet powerful, she carries the full DNA of the XP series, offering long-range capability, refined design, and remarkable volume for her size.

At 26.97 meters in overall length with a beam of 6.90 meters, the 27XP is the natural evolution of the line, a yacht that brings superyacht comfort to a more accessible scale. Built in FRP composite for optimal strength and efficiency, she is classified under CE Category A for true blue-water cruising.

The 27XP's exterior, by long-term collaborator Can Yalman, features Numarine's unmistakable explorer silhouette: bold, upright, and purposeful. Inside, vast windows flood the interior with natural light, creating a seamless connection to the sea.

Owners may select from four or five guest cabins, including a full-beam master suite with walk-in wardrobe and en-suite bathroom. On the main deck, an optional forward VIP suite expands the sense of space, while the main saloon opens fully to the aft deck, creating an open, flowing environment for relaxation and entertainment.

On deck, generous outdoor areas invite guests to experience the essence of ocean living, from the expansive flybridge with its commanding helm position and sun loungers, to the foredeck seating area that becomes a private retreat under the stars. Every detail has been crafted to make extended voyages both effortless and inspiring.

Powered by twin MAN D2676 LE 438 engines delivering 560 hp each, the 27XP cruises comfortably at 12 knots, reaching a top speed of 13.5 knots. At an economical speed of 8 knots, she achieves a range of 2,200 nautical miles, giving her true explorer credentials.

For owners who value serenity as much as adventure, advanced noise and vibration insulation ensure that life on board remains peaceful, even on the longest passages.

The 27XP is more than a yacht; it is a vessel for discovery, crafted for those who wish to go farther, stay longer, and travel in absolute comfort.

NUMARINE 30XP

COMFORT REDEFINED

The new Numarine 30XP is an addition to its successful XP range of explorers, and is explicitly designed to gratify the shipyard's most demanding serial owners.

A standout feature of the 30XP is its advanced noise and vibration control. Sound-reducing canopies, state-of-the-art insulation, and high-volume mounts ensure minimal noise from generators, while flexible couplings and thrust bearings further dampen vibrations. Lightweight partition walls enhance acoustic privacy, and the HVAC system incorporates specialized labyrinths to reduce sound, providing unmatched tranquility both at sea and at anchor.

Accommodating up to ten guests across five en suite staterooms, the yacht features a master stateroom on the main deck with floor-to-ceiling panoramic windows and unique bulwark cut-outs for stunning sea views. A fold-down balcony elevates the experience further.

The yacht's social spaces are equally remarkable. The main salon, with its expansive windows, offers an inviting retreat, while the aft deck and covered sundeck cater to open-air dining. A semi-open beach club at the stern maximizes space with an elevated design, creating a spacious 43 sqm area just steps below the main deck. Additional features include three fold-down platforms and a side-loading tender bay for a 5.5-meter tender.

Designed by Can Yalman and Ofist for interior; the raised pilothouse complements the yacht's elegant profile, while a forward sun pad provides a private lounging space. Accommodations for five crew members are thoughtfully positioned in the forward lower deck.

NUMARINE 32XP

EXPAND
YOUR REACH

The world is full of experiences just waiting to happen. The Numarine 32XP is an exceptional blend of size and capability, fully equipped and ready to take you on a journey anywhere you so desire.

The Numarine 32XP is the much-loved model of the highly acclaimed XP Series. Simplicity of use, engaging styling and the seamless integration of systems are key principles of the yacht. While being just under the limit of the 300 GT category, she boasts incredible volumes of internal living spaces on board, with her steel hull and GRP superstructure allowed to create unique layouts internally and customized external spaces.

The exterior styling is by Can Yalman, who is the design partner of the brand. The 32XP silhouette is deliberately rugged, powerful and hefty, with extensive angular windows. Another contemporary feature added to the yacht is the vertical bow, and it makes cutting through the water an easy feat. The hull's shape, designed by Numarine's long-standing collaborator, naval architect Umberto Tagliavini, is beneficial to the internal volumes.

Yalman has also penned the interior. Like all Numarines, the interior of the 32XP is fully customized to reflect the owner's preferences in terms of layout, design, fabrics and materials. There is a spacious main salon and several outside areas to socialize, including a large couch area with Bimini and cocktail table forward of the wheelhouse and a huge flybridge.

Including the master suite forward on the main deck, the 32XP has six cabins. Another roomy VIP cabin is on the upper deck. It opens up via sliding doors to the incredibly large open deck. In navigation, it can even fit a spectacular 9-meter RIB tender and two PWCs with the help of the 2.5 Tons crane. Four additional guest cabins are placed on the lower deck. Below deck forward, the 5-person crew quarters provide ideal spaces for the captain with his private cabin & ensuite, and four crew members in two doubles with ensuite.

The 32XP accommodates up to 12 guests and is ready for long cruises with her proven hull and ample storage facilities. With this exceptional model, sharing the experience of a lifetime has never been more pleasurable. All you have to do is step out of the comfort range of your usual base and explore the world with the Numarine 32XP.

OWN YOUR HORIZON

Taking to the sea and welcoming the embrace of the elements means entering a magical world without bans or borders, limited solely by the imagination. With The Big Blue steeped in her DNA, the Numarine 37XP goes that extra mile.

The Numarine 37XP is one of the bigger sisters of the XP series. Born and built according to parameters that have kept the Numarine brand at the forefront of innovation and technology, the 37XP combines a refined, but easily recognizable aesthetic with an ambitiously conceived functionality to deliver a first-class experience.

Can Yalman penned the 37XP's exterior design, built on the same 8-meter beam as the 32XP but has a generous five extra meters of length. The lines on the 37XP are a refinement of the robust look of the 32XP with flowing, softer lines that accentuate the longer length, with fewer interruptions that balance strength and elegance. Large windows provide ample natural light and are one of her standout features.

Constructed with a steel hull and FRP composite superstructure, Umberto Tagliavini penned the yacht's naval architecture.

The first unit in the series features an interior design by Hot Lab and accommodates 12 guests across seven staterooms, including a generous main deck owner's cabin in the bow. There is a designated owner's suite that provides additional space on the upper deck, which has direct access to the exterior terrace which is used as storage for a 9-meter tender while underway.

At 362 GT, the 37XP has plenty of room for socializing and relaxing across her four decks including a lower deck with generous spaces, huge windows and natural light. At the yacht's transom, a spacious beach club is complete with a bathing platform and an inside lounge open to the water. On the yacht's flybridge, 84 square-meters of alfresco space offers the perfect setting for sunbathing and dining.

Steering for greatness, the Numarine 37XP is there to take you to the edge of the world immersed in the elements with comfort and luxury.

NUMARINE 38XPC

TIMELESS BY DESIGN. EXPLORER BY NATURE.

The Numarine 38XPC reinterprets the timeless appeal of traditional gentleman's yachts through a contemporary explorer philosophy. Created for owners who appreciate elegance, heritage and purposeful design, she combines classic proportions with the engineering pedigree that defines Numarine's long-range explorer DNA.

Her exterior draws inspiration from the refined lines of classic yachts, with elegant curves, teak detailing and a balanced profile that feels both familiar and modern. Generous decks and panoramic glazing create a strong connection to the sea while maintaining the sense of composure and sophistication expected from a timeless yacht.

Designed with outdoor living in mind, the layout offers spacious social areas and protected decks that encourage relaxed cruising and long days on the water. Whether exploring island chains or enjoying coastal passages, the 38XPC delivers the comfort and confidence required for extended journeys.

Inside, the yacht offers a modern-classic atmosphere where warm woods, nautical metals and heritage-inspired joinery create a welcoming ambiance. Soft textures and refined craftsmanship evoke the quiet elegance of a private yacht club—comfortable, timeless and deeply nautical.

The Numarine 38XPC is designed for style-driven owners who value character as much as capability. It is a yacht that celebrates the romance of traditional yachting while delivering the performance, range and reliability expected from a modern explorer.

More than a tribute to the past, the Numarine 38XPC is a contemporary but timeless yacht—crafted for those who believe true luxury lies in the freedom to cruise beautifully, and to go further.

NUMARINE 39MXPC

TIMELESS BY DESIGN. EXPLORER BY NATURE. MEDITERRANEAN AT HEART.

The Numarine 39MXPC reinterprets the explorer yacht through a lens of timeless elegance. Built on Numarine's proven long-range platform, she combines the technical capability and seaworthiness of the XP series with a design language inspired by the enduring appeal of classic yachts.

At the heart of the 39MXPC is a reimagined stern that transforms the aft section into a spacious terrace over the sea. This open lounge area creates a relaxed, social environment where guests can gather close to the water, swim directly from the platform or simply enjoy the rhythm of life at anchor. Blending the atmosphere of a Mediterranean beach club with the practicality of an explorer yacht, it offers a new dimension of onboard living.

Generous exterior spaces encourage outdoor life, from long afternoons cruising between islands to quiet evenings at anchor. Protected walkways, expansive decks and thoughtful circulation ensure comfort and safety during extended voyages, staying true to the explorer philosophy that defines every Numarine.

Inside, the yacht offers a warm and refined interior atmosphere where contemporary design meets timeless nautical character. Natural materials, soft textures and elegant detailing create spaces that feel calm, welcoming and enduring rather than trend-driven—interiors designed to age gracefully alongside the yacht itself.

With the 39MXPC, Numarine brings together two complementary ideas: the reliability and range of a true explorer yacht, and the relaxed elegance of classic yachting life. It is a yacht designed not only to travel far, but to do so with a sense of style that remains timeless wherever the journey leads.

THE MED LIFESTYLE

Numarine 40MXP is a visionary yacht designed to embrace the Mediterranean lifestyle while venturing into the farthest reaches of the globe.

Let your imagination take flight as we unveil the Numarine 40MXP, an exquisite explorer yacht that builds upon the esteemed legacy of the Numarine 37XP. Tailored to navigate the vast oceans, this masterpiece infuses an unmistakable Mediterranean essence, with the 'M' in its name proudly representing its deep connection to the idyllic Mediterranean lifestyle.

The Numarine 40MXP transcends boundaries and knows no limits, crafted to conquer the farthest corners of the globe. With an impressive transatlantic range, expansive deck space, and a visionary design featuring a novel beach club extending to an 8-meter full beam swim platform, this superyacht offers a haven for the outdoors like no other. The seamless union with the sea, unprecedented for a yacht of this stature, promises a truly immersive and unparalleled experience.

From the captivating allure of the Aegean to the elegance of the Côte d'Azur, and the exotic allure of the Caribbean and the Pacific, these breathtaking destinations have never been closer. The Numarine 40MXP epitomizes the epitome of luxury exploration, embodying the essence of the Mediterranean while inviting you to explore the world's most enchanting waters.

NUMARINE 45XP

THE WORLD IS NOT ENOUGH

A bold nautical adventure requires an equally bold companion to brave the seas. Designed to take you anywhere you desire in the utmost comfort and luxury, our second largest model to date, the Numarine 45XP just made the world a much smaller place.

A break from the norm in long range cruising, the Numarine 45XP combines stunning aesthetics with unsurpassed ocean-going performance, an extended range and the capability to navigate the world's roughest waters in absolute comfort.

With exterior design by Can Yalman and interior design by Hot Lab, Numarine's repeat design partner, the vessel features naval architecture by long-time collaborator Umberto Tagliavini.

Built in steel with aluminum superstructure, with a gross tonnage of 498 GT and a layout across four decks, the 45XP makes the most of her generous 9.25-meter beam. With her twin MAN 1450 HP engines, the 45XP can reach a top speed of 16 knots and a cruising speed of 12 knots.

With an impressive range of 6,000 nautical miles at cruising speed, equipped with the finest appointments and amenities for fully self-sufficient extended time onboard, the 45XP has rewritten the rule book and opened up a whole new world of possibilities for adventurous owners who cherish the journey just as much as the destination.

EXPERIENCE THE EXCEPTIONAL

The Numarine 47MXP stands as a testament to exceptional design and engineering, offering a perfect balance of style, capability, and innovation. Built to navigate the world's most demanding waters, the 47MXP transforms long-range cruising with its generous space and unparalleled versatility.

Building on the success of its predecessor, the 45XP, the 47MXP offers even more room for adventure. Stretching to an impressive 46.7 meters, the 47MXP boasts an expansive beach deck and additional space for onboard activities, making it the ultimate choice for those seeking unparalleled comfort and versatility.

Constructed in steel with aluminum superstructure, and a gross tonnage of 498 GT, the 47MXP spans four spacious decks and utilizes a generous 9.25-meter beam. Twin MAN D2868 LE489 1450 HP engines provide a top speed of 16 knots and a cruising speed of 12 knots, ensuring smooth and efficient voyages.

With a remarkable range of 6,000 nautical miles at cruising speed and equipped with premium amenities, the 47MXP allows for extended self-sufficient journeys. The 47MXP has been crafted for owners who cherish the freedom of exploration as much as the destination itself, offering unparalleled comfort and style for every mile of the journey.

SILENCE IS THE NEW TREND

SILENT PACK

For decades, the pursuit of luxury in yachting was defined by size, speed and range. Today, however, a new priority is shaping the way owners experience life at sea. Silence has become the ultimate luxury, not merely the absence of noise, but the presence of uninterrupted comfort, deeper relaxation and a stronger connection with the surrounding environment.

Imagine spending a peaceful evening at anchor, sharing dinner with family and friends without the constant background hum of a generator. Imagine waking before sunrise to nothing more than the gentle movement of the water, stepping onto the swim platform and diving into crystal-clear seas free from exhaust fumes. These moments define the modern explorer lifestyle, and they are exactly what inspired Numarine's Silent Pack philosophy.

At Numarine, silence is not achieved through a single component. It is engineered as a complete onboard ecosystem, where intelligent energy management, advanced battery technology, vibration reduction and renewable energy work together to transform the onboard experience. Every element has been carefully considered to minimise noise, reduce mechanical vibration and maximise the time owners can enjoy their yacht exactly as nature intended. Developed in collaboration with industry-leading partners MG Energy Systems, Sleipner and Silent Line, the Silent Pack combines proven technologies into a seamlessly integrated solution. Rather than relying continuously on generators, energy is intelligently stored, managed and utilised when it is needed most, allowing owners to choose when generators operate, rather than having them dictate life onboard.

The journey began with a simple objective: eliminate unnecessary sources of onboard noise. Through extensive work on acoustic insulation, vibration isolation and the optimisation of mechanical systems, Numarine significantly reduced the transmission of both airborne and structural noise throughout the yacht. At the same time, high-capacity MG Energy LiFePO battery systems were introduced to provide quiet, reliable onboard power during the hours when peace matters most.

This philosophy comes to life aboard the 27XP Super Silent Pack. At its core is a 92.8 kWh MG Energy lithium iron phosphate battery bank operating on a sophisticated 48V DC architecture. Combined with a 5.6 kW solar array, Victron inverter and charging systems, engine PTO charging and an intelligent Sleep Mode that automatically optimises onboard loads, the yacht can comfortably spend the night at anchor without running a generator. Air conditioning continues to operate efficiently, essential systems remain fully functional, and guests enjoy complete tranquillity throughout the evening and into the morning.

The same philosophy has been expanded even further aboard the 30XP Silent Pack. Featuring a 141.6 kWh MG Energy LiFePO battery system, a 6.6 kW solar installation and advanced energy management, the system delivers extended generator-free operation while supporting all essential onboard services. Importantly, the Silent Pack is available regardless of propulsion configuration, allowing owners to experience the same exceptional levels of onboard comfort whether selecting the standard drivetrain or alternative propulsion options.

Comfort, however, extends beyond electrical systems. Mechanical refinement plays an equally important role in creating a truly silent yacht. On the 30XP, the integration of the CENTAFLEX-A flexible coupling significantly reduces vibration and mechanical shock transmitted through the drivetrain. The result is smoother operation, improved protection of propulsion components, greater long-term reliability and a noticeably quieter onboard environment both underway and at anchor.

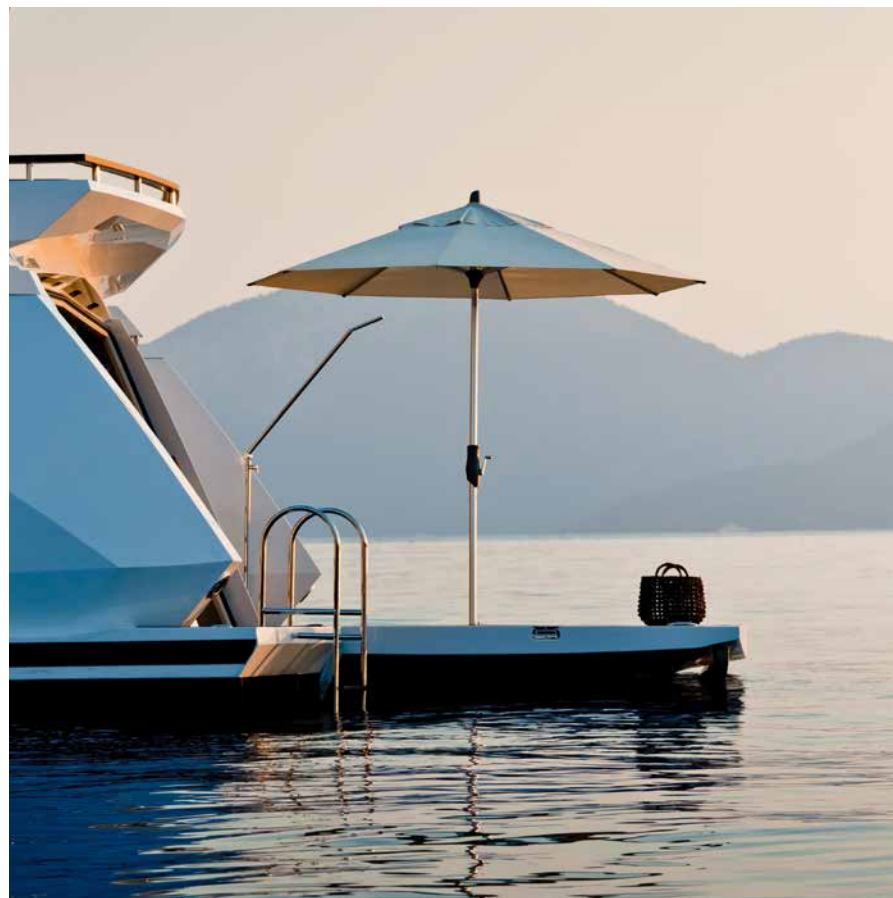

Together with Sleipner's latest stabiliser and thruster technologies, intelligent energy management ensures that generators are no longer required during normal cruising, whenever the main engines are supplying power. Instead, energy generated underway replenishes the battery bank, while the solar array continuously contributes renewable power throughout the day. Surplus energy is stored for later use, allowing owners to enjoy peaceful evenings and quiet mornings with minimal environmental impact.

Generators remain an important part of the overall system, but their role has fundamentally changed. Rather than operating continuously, they become a deliberate choice, used only when additional charging is required after extended periods at anchor. This not only reduces fuel consumption and emissions but also allows owners to tailor onboard energy use to their own cruising style.

Ultimately, the Silent Pack is about far more than technology. It reflects Numarine's belief that true luxury is measured not only by craftsmanship and capability, but by the quality of every moment spent onboard. Spacious interiors, abundant natural light, uninterrupted conversations, restful sleep and the simple sound of the sea become defining features of the experience.

As explorer yachts continue to evolve, silence is no longer simply an engineering achievement—it has become the new trend in luxury yachting. Through thoughtful innovation and close collaboration with world-class partners, Numarine continues to redefine what owners can expect from life at sea, delivering yachts that are not only capable of exploring farther, but of allowing their owners to experience those journeys in complete comfort and remarkable silence.

THE SEA & THE SELF

When you explore the open sea, you begin to explore more than a destination.
You rediscover silence, perspective, and the rhythm of your own self.

There is a moment on every voyage when the shoreline disappears.
The restaurants, the traffic, the meetings, the notifications, the routines,
they all remain somewhere behind the horizon.

Ahead, there is only open water.
This is when a journey at sea truly begins.

For many Numarine owners, the greatest luxury is not speed, space, or even comfort. It is distance.
Distance from noise. Distance from urgency. Distance from the constant demand for attention.

A few hours after departure, something changes. The phone is no longer the first thing you reach
for. Conversations become longer. Meals take their time. You stop checking the clock.

The sea quietly reorganizes your priorities. On land, our days are divided into schedules. At sea,
they are measured differently. Sunrise on the flybridge. A morning swim in a secluded bay. The
changing colours of the horizon. Dinner under the stars.

The rhythm becomes natural rather than artificial. Explorer yachts were created for exactly this
reason. Not simply to travel farther, but to create the freedom to stay longer. To spend a night in a
remote anchorage. To wake up surrounded by silence. To follow curiosity rather than a timetable.
Perhaps this is why long-range cruising feels different from any other form of travel.

The sea removes distractions one by one. What remains is clarity. You notice things that usually
escape your attention: the movement of clouds, the direction of the wind, the sound of water
against the hull. And somewhere within that stillness, you begin to notice yourself again. Not a
different version of yourself. Simply the one that everyday life often leaves behind.

This is the quiet gift of the sea. Not escape, but perspective. Not isolation, but reconnection. Every
voyage may begin with a destination. Yet the most meaningful discoveries are often made long
before you arrive.

BOOKS ON THE BOW

There is something about life at sea that invites a different rhythm
a sense of unhurried luxury where time stretches and thoughts wander.

A yacht is not only a vessel of exploration but also a sanctuary
for reflection, discovery, and inspiration.

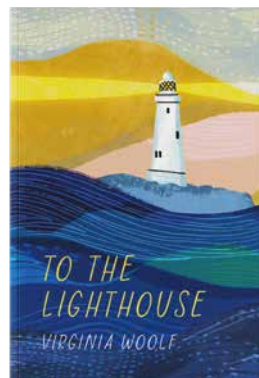

With that in mind, Books on the Bow is our curated selection of books designed for Numarine yacht owners who appreciate the art of life and the beauty of storytelling. This collection brings together the world's most compelling words: timeless classics, maritime adventures, modern narratives, and art volumes that celebrate the finer things in life. Each title promises to transport you beyond the horizon, even as the waves gently lap against the hull. For those who believe every anchorage deserves a story, consider this your personal library at sea.

Timeless Classics

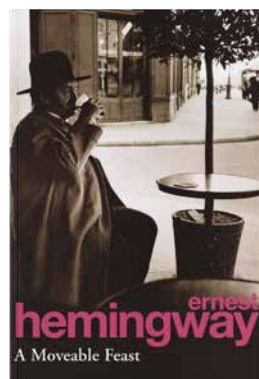

THE GREAT GATSBY BY F. SCOTT FITZGERALD

An enduring portrait of glamour, ambition, and longing, this American classic captures the essence of elegance and excess—an ideal companion for evenings on deck, where champagne sparkles like the stars above.

TO THE LIGHTHOUSE BY VIRGINIA WOOLF

A lyrical exploration of time, memory, and art, set against the backdrop of the sea. Woolf's masterpiece offers a meditative escape for those moments when the ocean feels endless.

A MOVEABLE FEAST BY ERNEST HEMINGWAY

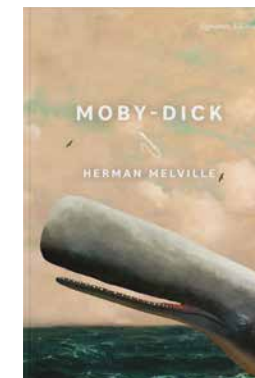

Hemingway's Paris memoir brings a taste of wanderlust and simple pleasures—perfect for those who seek inspiration in the interplay between travel, creativity, and joie de vivre.

Maritime Adventures

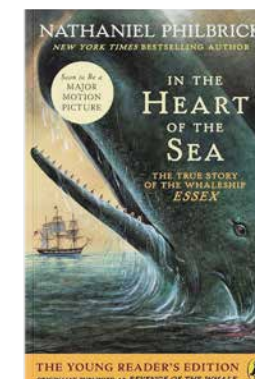

THE OLD MAN AND THE SEA BY ERNEST HEMINGWAY

A tale as vast as the ocean itself, Hemingway's Pulitzer-winning novella captures the raw struggle between man and nature. Ideal for mornings when the horizon feels infinite.

MOBY-DICK BY HERMAN MELVILLE

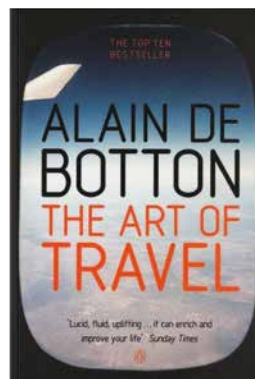

An epic of obsession and the untamed sea, this literary voyage invites readers to plunge into the depths of human ambition. For those who love the grandeur of storytelling as much as the swell of the ocean.

IN THE HEART OF THE SEA BY NATHANIEL PHILBRICK

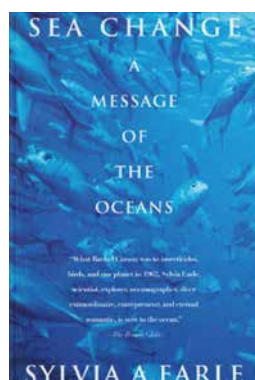

The real-life tragedy that inspired Moby-Dick. Philbrick's gripping narrative blends history and adventure, making it an unforgettable choice for those fascinated by the untold stories of the sea.

Modern Explorations

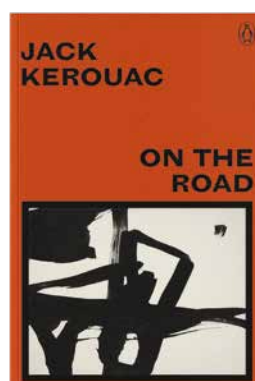

THE ART OF TRAVEL BY ALAIN DE BOTTON

More than a guide, this reflective work explores the philosophy of why we travel. A must-read for those who find meaning in every journey, every anchorage, every fleeting horizon.

SEA CHANGE: A MESSAGE OF THE OCEANS BY SYLVIA A. EARLE

Written by the legendary oceanographer, this book is both a love letter to the seas and a call for preservation—a fitting read for those who respect and cherish the waters they sail upon.

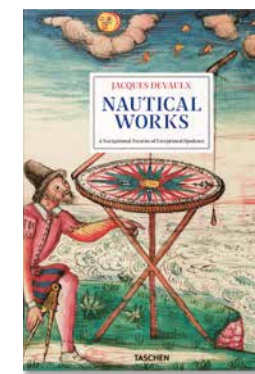

ON THE ROAD BY JACK KEROUAC

Though its highways are paved, not blue, Kerouac's novel celebrates freedom, spontaneity, and the quest for meaning—values that resonate deeply with life aboard a yacht.

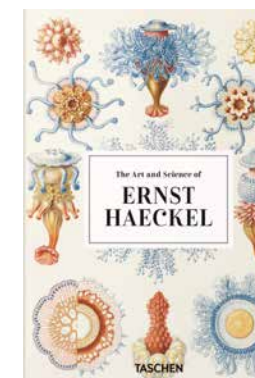

The TASCHEN Collection

Coffee table icons for a life well-traveled.
Luxury on board isn't just about interiors—it's about details that inspire.
TASCHEN's art books bring visual splendor to your yacht library, perfect for leisurely afternoons or sparking conversations over an aperitif.

NAUTICAL WORKS BY JACQUES DEVAULX

A 16th-century maritime masterpiece, featuring detailed maps, illustrations, and observations from early sailors. Its historical depth and artistry make it a standout addition to any yacht library.

THE ART AND SCIENCE OF ERNST HAECKEL

A stunning collection of Haeckel's marine illustrations, blending scientific precision with artistic elegance—perfect for celebrating the beauty of the ocean on board.

THE NEW YORK TIMES 36 HOURS: EUROPE

A vibrant guide to Europe's most alluring cities, ideal for planning your next journey or reliving past adventures from the comfort of your deck.

A Personal Touch

A library becomes truly alive when it reflects its owner's soul. We invite Numarine yacht owners to add their own favorites to the collection—books that define their journeys, stories that stay anchored in memory.
After all, the most luxurious libraries are the ones that travel with you.

Our Collaborators

CAN YALMAN
Industrial Designer

After graduating from the Parsons School of Design, Can Yalman started his career at Arçelik, one of the leading Industrial Companies in Türkiye. After seven years, in 2002, he established his namesake studio, Can Yalman Design, and started working as a designer for many companies.

UMBERTO TAGLIAVINI
Naval Architect

Umberto Tagliavini started his career in 1980 as a Naval Architect. After working on many projects with different companies, Umberto established his own company, Umberto Tagliavini Marine Design & Services, in 1990. His experienced team gives consultancy in many areas.

GURIT - Advanced Composite Solutions

Gurit has established itself as a developer and innovator in the composites industry and positioned itself as the leading global supplier of composite materials, engineering services, tooling equipment, and select parts and systems. Gurit works worldwide with multinational companies. At Numarine, we collaborate with them on the structural engineering of motor yachts.

SILENT LINE - Noise and Vibration Solutions

Sjaak van Cappellen founded Silent Line Group in 2001, offering innovative engineering-based solutions in noise and vibration control for the global yachting industry. Sjaak van Cappellen has received three international awards for his innovative solutions onboard the quietest yachts ever built anywhere in the world.

ENERGY SOLUTIONS - Power and Control Systems

Sourcing products from the world's leading manufacturers, Energy Solutions has been working with prominent OEM boatbuilders, superyacht owners, boat yards, and individual sailing and motor yachts since 1996. Energy Solutions conducts research, designs, and manufactures in-house, and provides clients with fully designed, efficient power and control systems incorporating all elements from helm panels to tank senders.

KROES

Kroes Marine Projects is a design and engineering company for the yacht/ship building industry. Their team of 42 dedicated and experienced engineers have extensive knowledge of marine mechanical and offshore engineering and are always looking for new challenges.

HOT LAB

Hot Lab's work benefits some of the most prestigious shipyards and refined owners, who are accompanied and advised throughout the entire design and construction process of their yachts. Hot Lab is designing yachts with a new approach and a renewed balance between style and luxury, called "Architecture for Voyagers."

OFIST

Established in 2004, Ofist specializes in context-driven designs inspired by Istanbul's cultural heritage. The studio works across diverse sectors, including social, commercial, residential, and product design, tailoring each project to its unique environment and purpose.

NEWS FROM NUMARINE

SHARING THE LATEST NUMARINE UPDATES,
LAUNCHES AND EVENTS...

NUMARINE ACHIEVES TRIPLE ISO CERTIFICATION ACROSS QUALITY, ENVIRONMENT AND OCCUPATIONAL SAFETY

Numarine has achieved three internationally recognised ISO certifications covering quality management, environmental responsibility, and occupational health and safety. Independently verified, ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 place Numarine among a limited number of yacht builders in Türkiye to hold all three simultaneously. The certifications reflect the shipyard's focus on controlled production processes, sustainability, continuous improvement and workplace safety, reinforcing its commitment to internationally recognised standards across its operations.

NUMARINE HOSTS PRIVATE BOSPHORUS CRUISE ABOARD THE 30XP

Numarine welcomed a select group of guests aboard the 30XP for a private cruise along the Bosphorus, combining culture, cuisine and the yacht's signature silent cruising experience. Renowned historian and guide Saffet Emre Tonguç led a specially curated journey past Istanbul's Ottoman palaces, waterfront mansions and historic fortresses. Guests also enjoyed fine dining inspired by regional flavours, while experiencing the 30XP's spacious decks, onboard comfort and quiet performance against one of Istanbul's most iconic backdrops.

NUMARINE HOSTS ITS FIRST PRIVATE BOAT SHOW IN ISTANBUL

Numarine hosted its first private boat show at Istanbul's historic Beykoz Kundura, bringing together yacht owners, industry professionals and guests for a two-day showcase. The 26XP, 30XP, 32XP and flagship 37XP were presented, giving visitors the opportunity to experience the brand's explorer range first-hand. Co-sponsored by Range Rover, the event also marked the Türkiye debut of the Range Rover SV Riviera Edition, alongside private yacht tours, music, fine cuisine and curated hospitality.

NUMARINE YACHTMASTERS 2025 GATHERS CAPTAINS IN NORTH CYPRUS

Numarine brought together its captains and their partners in North Cyprus for the 2025 edition of its annual YachtMasters gathering. Held over two nights and three days, the event combined cultural exploration, sightseeing, fine dining and time to reconnect away from the demands of the season. Dedicated to the captains at the heart of Numarine's global fleet, the annual gathering celebrates their commitment while strengthening the sense of camaraderie and connection across the wider Numarine family.

NUMARINE FAMILY BIDS FAREWELL TO SUMMER IN GÖCEK

The annual Numarine Owners Farewell Summer Event brought yacht owners and their guests together in Göcek on October 11 for a memorable day on the water. With the Numarine fleet gathered for the occasion, the private event celebrated the shared passion, loyalty and sense of community that connect the brand's owners. The gathering continued Numarine's tradition of creating experiences beyond yachting while strengthening lasting relationships within its growing global community.
